About Sight Words and These Lists:

- We know that 25 words make up approximately $\frac{1}{3}$ of all items published
- 100 words comprise approximately $\frac{1}{2}$ of all of the words found in publications
- 300 words make up approximately 65% of all written material

NOTE: There are many different lists for 4th and 5th grades. The ones here are the ones our school uses most frequently.
